Marlin.... see the nite below from frank. Can you work with the rcmp to get the list of companies that they have contacted. We will likely need to ask one of our staff to start making calls tomorrow. First thing though is to get the list from the rcmp. Thanks

Subject: Tow Trucks

One other issue.

Do you think we can get a list of companies, government agencies, etc. that the RCMP have contacted to secure towing equipment.

My recollection is that they have fanned out quite extensively, but Ray has raised the issue of having us do our own search (i.e. oil field companies, other government contractors, etc.).

Thanks,

Frank
